

Hy-Lok PS Series

Ball Valves and Fittings for Paint System

Catalog No. H - 100PS
Sep. 2006

General Information

Hy-Lok PS series valves & Fittings are designed smooth bore & minimum cavity-free and accurately manufactured so that and provide the convenience of effective performance for painting process and finishing work. Ball valve, fittings & accessory are also served.

■ Valves (See Page 2, 3)

Materials of Construction

Body, Ball and End connection : SS316 Standards
Seat : PTFE
Handle : SS430 Standard
Others : Stainless General
● Body & Connection : Carbon steel Nickel plated as option

Silicon Free

To eliminate the enemy of contamination and the operate efficiently, silicon is free.

Special Plated nut threads

Hy-Lok Tube Fitting : Silver plated
Bite Type Tube Fitting : Dry lubricant
● Easy and positive ferrule set-up, without galling or annoying

Pressure Rating (Max 69bar ; 1,000psig)

To deliver reliable fluid and air containment, working pressure rating meets 600psig

Ordering Information

Add a material designator to the basic part number.
ex.)BVPMB-6N6T / S316
Other body materials are available upon request.

■ Fittings (See Page 5)

Cavity Free

Due to no space to contain the painting dregs at inside of fittings cleaning process requires easy performance and minimum volume solvent

- No dead space.
- Smooth internal for easy cleaning
- Tube ends are machined with a square face and corners to enhance alignment and maintain tube wall uniformity.
- Weld Body
- Weld Nipple
- PTFE Packing
- Nut
